INSPECTION REPORT

Partial XXX Complete Exploration
Inspection Date: 02/26/2002 / Time: 8:30 AM to 10:30 AM
Date of Last Inspection: 01/29/2002

Mine Name: Des Bee Dove Mine County: Emery Permit Number: C/015/017
Permittee and/or Operator's Name: PacifiCorp
Business Address: P.O. Box 310, Huntington, Utah 84528
Company Official(s): Dennis Oakley
State Official(s): Jim Smith Federal Official(s):
Weather Conditions: Cold, sunny, clear, light breeze
Type of Mining Activity: Underground XXX Surface Prep Plant Other
Existing Acreage: Permitted 2760 Disturbed 24 Regraded Seeded
Status: Active XXX

REVIEW OF PERMIT, PERFORMANCE STANDARDS & PERMIT CONDITION REQUIREMENTS

- Substantiate the elements on this inspection by checking the appropriate performance standard.
 - For complete inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check N/A.
 - For partial inspections check only the elements evaluated.
- Document any noncompliance situation by referencing the NOV issued at the appropriate performance standard listed below.
- Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
- Provide a brief status report for all pending enforcement actions, permit conditions, Division Orders, and amendments.

INSPECTION REPORT
(Continuation Sheet)

PERMIT NUMBER: C/015/017

DATE OF INSPECTION: 02/26/2002

(COMMENTS ARE NUMBERED TO CORRESPOND WITH TOPICS LISTED ABOVE)

Photographs can be found at:

<ftp://dogm.nr.state.ut.us/PUB/MINES/Coal/C015/017/Images/02262002>

2. SIGNS AND MARKERS

The sign at the mine entry has been vandalized by shooters, but except for the telephone numbers of the Salt Lake and Huntington offices, the necessary information is legible. Dennis Oakley said he would restore the telephone numbers, that afternoon if possible. The operator is disinclined to make a new sign because that may simply invite another episode of vandalization.

4B. HYDROLOGIC BALANCE: SEDIMENT PONDS AND IMPOUNDMENTS

The sedimentation pond has been decanted and has minimal water in it. The pond still needs to be cleaned of sediment, but the operator is waiting to see if reclamation can be done instead, thereby avoiding an additional, unnecessary expense.

7. COAL MINE WASTE/REFUSE PILES/IMPOUNDMENTS

Coal mine waste has been placed on the bath-house pad and compacted as part of reclamation.

8. NONCOAL WASTE

Steel and old tires have been removed from the coal mine waste compacted on the bathhouse pad and generally from anywhere earthwork is done on this site (photo # P0003385 and P0003386). This waste will be disposed of off-site at a landfill. A concrete structure at the Deseret pad has been removed since the last inspection (photo # P0003381), and removal of the concrete supports for a section of an old tram is planned for the immediate future. Concrete will be buried on-site during reclamation.

12. BACKFILLING AND GRADING

Coal mine waste has been placed on the bath-house pad and compacted as part of reclamation.

Inspector's Signature: 
James D. Smith # 43

Date: February 27, 2002

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas & Mining.
